GEOGRAPHICAL DIVISIONS OF STREETS

Washington is divided into four districts: Northeast, Southeast, Southwest and Northwest. These districts radiate from the Capitol as a center. The dividing lines are North Capitol Street, East Capitol, South Capitol, and a line drawn west through the Mall. The divisions are shown on the map by the heavy black lines intersecting at the Capitol.

Northwest is the principal district, and is the one always understood unless another is designated.

Each district has its own series of streets, with letters and numbers beginning from the Capitol.

Numbered streets extend north and south.

Lettered streets extend east and west.

To find any street, draw a straight line from its corresponding number or letter in the margin.

HOW TO USE THIS MAP

The "Standard Guide" Marginal Reference System

The letters and numbers in the margins correspond to the streets which bear the same letters and numbers, and are exactly in line with them. Note that the margin letters and numbers are in N. E., S. E., S. W. and N. W. sections corresponding to these districts of the city.

To find a street, draw an imaginary line straight down from its top-margin number, or straight across from its side-margin letter. This line will lie along the street.

The index references are by the marginal letters and numbers, which are also the letters and numbers of the streets, at or near the intersection of which the point is situated. Thus, to find the Red Cross: the index reference is, Red Cross, 17 E. Northwest is understood. From 17 in the northwest top margin and E in the northwest side margin draw straight lines until they meet, and here the point is found, at 17th and E Streets.

The WASHINGTON STANDARD GUIDE is the best hand-book for visitors. It is practical, complete and handsomely illustrated. Price 50 cents. Sold everywhere.
